

Welcome to BIHE

The Bahá'í Institute for Higher Education (BIHE) was founded in 1987 in response to the Iranian government's continuing campaign to deny Iranian Bahá'ís access to higher education. As its graduates excel in post graduate studies internationally, the BIHE's commitment to high academic standards, international collaboration, and an innovative teaching-learning environment is increasingly recognized. The BIHE offers 32 university-level programs across 5 faculties and continues to develop and deliver academic programs in Sciences, Engineering, Business & Management, Humanities, and Social Sciences.

Faced with unrelenting religious persecution involving a wide range of human rights violations, including systematic denial of access to higher education, BIHE developed several unique features which have become its defining strengths. Courses delivered at the outset by correspondence for security reasons are now provided on-line, using leading-edge communication technologies. In addition, an affiliated global faculty (AGF) has been established comprised of hundreds of accredited professors from universities outside Iran who assist BIHE as researchers, teachers and consultants.

The need to create a new university for those who were denied access to higher education captivated the talents and minds of exceptional faculty and staff from within Iran. For twenty years they have dedicated their efforts to building an exemplary institution and cultivating a student body prepared for fulfilling careers, future study, and social responsibility. BIHE provides its students with the necessary knowledge and skills to not only persevere and succeed in their academic and professional pursuits, but to be active agents of change for the betterment of the world.

These unique strengths of BIHE, together with the top-ranking marks of its students, have helped BIHE graduates secure graduate studies at close to 79 prestigious universities and colleges in North America, Europe, Australia and Asia (India).

Welcome to BIHE and the BIHE website. Please check back often for regular updates to the site.
